

JOURNAL OF NUTRITIONAL SCIENCE AND VITAMINOLOGY

Vol 64, No 6, December 2018

CONTENTS

Regular Paper

- CHOI S-W, KWEON S-S, LEE Y-H, RYU S-Y, NAM H-S, PARK K-S, KIM SA and SHIN M-H: 25-Hydroxyvitamin D Is Associated with Kidney Function: The Dong-gu Study 385–390
- IKEDA S, HANZAWA F, TAKAHASHI S, SUZUKI N, SANO K, ODA H and UCHIDA T: Tissue Distribution of Menaquinone-7 and the Effect of α -Tocopherol Intake on Menaquinone-7 Concentration in Rats..... 391–398
- UCHIDA T, NOMURA S, ODA H and IKEDA S: γ -Tocopherol Is Metabolized Faster than α -Tocopherol in Young Japanese Women 399–403
- KAWADE N, TOKUDA Y, TSUJINO S, AOYAMA H, KOBAYASHI M, MURAI A and HORIO F: Dietary Intake of Ascorbic Acid Attenuates Lipopolysaccharide-Induced Sepsis and Septic Inflammation in ODS Rats..... 404–411
- MORIYA A, FUKUWATARI T and SHIBATA K: A Suitable Diet for Recovery from Starvation Is a High-Fat Diet, but Not a High-Protein Diet, in Rats..... 412–424
- FUKUDA Y, YAMAMOTO S, TANIGUCHI Y, MARUKAWA S, KURIHARA H, NAKAJIMA H and YAMASAKI T: Relationship between Food-Intake Trends and Estimated Glomerular Filtration Rate in Elderly Patients with Type 2 Diabetes Mellitus..... 425–431
- XU J, YUAN X, TAO J, YU N, WU R and ZHANG Y: Association of Circulating 25-Hydroxyvitamin D Levels with Colorectal Cancer: An Updated Meta-Analysis 432–444
- ONISHI S, SHIRAKI M, NISHIMURA K, HANAI T, MORIWAKI H and SHIMIZU M: Prevalence of Sarcopenia and Its Relationship with Nutritional State and Quality of Life in Patients with Digestive Diseases 445–453
- WANG Z, WANG C, QIU J, NI Y, CHAI S, ZHOU L, LI J, YAN B, YANG J and LIU Q: The Association between Dietary Vitamin C/E and Gestational Hypertensive Disorder: A Case-Control Study 454–465
- MASUDA A, HIDAKA K, HONDA S, TANIGUCHI A, DOI S and MASUDA T: Radical Scavenging Properties of Roasted Egoma (*Perilla frutescens* var. *frutescens*) Oils and Identification of Their Characteristic Scavengers 466–472

Note

- YAMAGUCHI M, TAKAHASHI K, KIKUSHIMA R, OHASHI M, IKEGAWA M, YAKUSHIJI T and YAMADA Y: The Association between Self-Reported Difficulty of Food Access and Nutrient Intake among Middle-Aged and Older Residents in a Rural Area of Japan..... 473–482
- MURAKAMI H, OGAWA T, TAKAFUTA A, YANO E, ZAIMA N and MORIYAMA T: Percutaneous Sensitization to Soybean Proteins Is Attenuated by Oral Tolerance 483–486

- Contents of Volume 64 487–492
- Index to the Authors of Volume 64 493–498
- Index to the Key Words of Volume 64 499–501
